ALMA ILL DOES NOT WORK WITH OCLC WORLDSHARE ILL

TIPASSA – since 2017 – cloud-based ILL

- Features -
 - <https://www.oclc.org/en/tipasa/features.html>
- Recordings
 - <https://www.oclc.org/en/tipasa/resources/recorded-demos.html>
- Alma and Tipasa Integration
 - <https://developers.exlibrisgroup.com/blog/alma-and-tipasa-integration/>

DEFINED

- From the OCLC website, "Tipasa was an ancient Roman trading city, located in what is now modern-day Algeria."
- Tipasa is a cloud-based ILL management system for libraries that want to share and obtain materials through different resources and systems, as well as provide an exceptional experience for the patron. Using this name for an ancient trading city feels connected with sharing knowledge and ILL"
