

Loading Brief Vendor Records in Aleph

The screenshot displays the Aleph system interface with a 'Save As' dialog box open. The dialog box shows the file name 'nfg-lmbsb' and the save type 'MRC File (.mrc)'. A black arrow points to the 'Save' button. The background shows the Aleph system interface with a search bar, a 'Return to Selection Lists' button, and a 'Download List' button. A black arrow points to the 'Download List' button.

Total Products:	9
Total Units:	9
Total Retail Price*	\$ 200.72

*Total amount shown is based on suggested retail prices. If any title displays an "N/A" in the price field, this means that a price is not available, and the amount is not reflected in your total.

Lists with more than 4,000 items cannot be downloaded in their entirety. If you download a list that contains more than 4,000 items, only the first 4,000 items will be included in the download.

Download Options:

Format:

Download & Keep [MARC-G \(Generic\) EAN Format](#)

Order PO: (Optional)

If your account has been mapped with Order PO as a Custom MARC field, you can input a PO number to be downloaded with this information. See your iPage administrator for complete information.

Notice: The ONIX download will provide complete records for books. ONIX records for items other than books may be incomplete.

Library File Upload

This interface allows users to upload files (.txt, .mrc, .csv...) to the server for use in various Aleph services. 'Browse' and add up to five files at a time, then click 'Submit' to transfer the file(s) to the server. After uploading, the service Move a File into an Input Directory (cust-90) must be run in order to transfer the file to the appropriate location on the server so it is available for the service to be run.

IMPORTANT: make note of your file name(s) as it will be needed to run the cust-90 service!
