

This is the story about Odie when he went to New England Public School.....

When I told the 3rd grade class that Odie was here for a visit and then we discussed the migration to Polaris they decided that it was important to marry Odie to Polaris. They worked with some high school students to create Polaris and her gown. Each of the students in Mrs. Petri's 3rd grade class designed their own wedding attire. They tried to convince me that they should all be offspring of the couple, I tried to explain that it usually takes a couple a little more time than that to decide to have children. The kindergarten class (Mrs. Greenwood) also had a wedding for the letters "Q" and "U" so it was an impromptu wedding. There was also treats eaten. Odie also went to the band room and attempted to play an instrument. I think he needs to take a few lessons. He realized that he needed a job to support his wife, so he tried to replace our secretary, Julie Odophal. It did not work. Odie attended the high school prom, but we have no pictures because he tried to be a wallflower and hide. He is kind of shy.
